DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 6 are allowed.

2. The following is an examiner's statement of reasons for allowance: The Applicant filed an amendment received on May 13, 2004 and amended both the specification and drawings based on objections raised in the previous Ex-Parte Quayle action. No new matter was introduced. The proposed changes are approved and accordingly, the objections are withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent Application Publication 2003/0235933 to Rantala et al. and U.S. Patent Application Publication 2002/0191916 to Frish et al. both describe methods for fabricating waveguides including the use of gray scale masks. However, these references are silent with respect to layering a photoresist on a branch section of an optical circuit and arrayed waveguides and forming a vertical taper structure on the photoresist.
